J. A. CLOPTON, M. D. Jan. 1, 1858. Huntsville, Ala.

Lexington, Davidson county, N. C. May 11, 1857.

Dr. J. A. Clopton: Dear Sir-Yours of May 6th was received at home (Jamestown, Guilford county; yesterday, but I had not then time to auswer. I came here to-day to Court, and made some inquiry as to the cases which had been under your care and attention, and learned that two very important cures had been effected by your medicines. That of Mr. Samuel Bingham Mocksville, and Archibald P. Carter, Est. of Davie county, who were willing to a strfy in your behalf in the suit, had it not been settled. Mr. Mabry was also referringto an important cure of a young lady that was at his house, as she went on her way to see you.

I have a small, hard, dry scab on my cheek, which is getting a little sore. Docter, what will cure it? It has been there for several years. Most respectful y, GEO. C. MENDENHALL.

Dr. Duffy's Tonic Mixture,

FOR THE CURE OF AGUE AND FEVER.

THERE is no disease to which the human body is liable so universal, se dreaded, or so generally fatal, as Fever; it appears in different countries and climates, under different types and characters. In this country, where its annual return is looked for with anxiety and apprehension, it usually

assumes the bilious type. Another species of fever prevalent here, and which it may be said never leaves or subsides altogether, is the Autumnal Intermittent or 'Agne and Fever,' which, if not so fatal, yet is very distressing. Its characters, effects and consequences, are peculiar; to a diminished energy of the nervous system are to be ascribed the languor, lassitude and general prostration which characterizes its invasion; to which might be added the derangement of the mixed fone tions of the liver, stomach and intestinal canal. It is therefore gaite manifest-in fact, it is well known, that Agne and Fever lay the basis of consumption of the lungs, chronic affection of the liver and spleen. dyspepsia, and not unfrequently dropsy, and when once this state of the viscera becomes established, there is a constant tendency to relapse, even from slight causes, and when thus complicated with those constitutional diseases their treatment and cure becomes more difficult.

Common sense teaches, that the cure of Ague and Fever consists in shortening the duration of the paroxysm, and preventing its return. The first is to be accomplished by depleting the bowels, relaxing the skin. &c.; the second, by the prompt application of such medicines as are calculated to restore the deranged functions and give a heslthy tone to the nervous system.

The Tonic Mixture,

Now offered possesses all the qualities requisite to effect the second indication. The first dose generally checks the disease, and one bottle never fails to effect a cure; a healthy reaction takes place, the appetite is restored, the system becomes invigorated. and the patient begins to feel surprised at the rapid transition from a state of morbid suffering to that of progressive recovery These effects have been experienced by all who have used it, which could be shown by numerous testimonials. See wrapper ac companying mixture. Chas. Duffy, M. D.

TESTIMONY FROM NO. CAROLINA Certificate of Dr. W. SMITH, of Pa Richmond County, N. C.

PINE HILL, March 4th, 1854. Dr. J. M. Jackson, Philadelphia-Dee Sir-I have been a subject of Dyspepsia, its worst form, for the last five years, & was my condition for twelve months that the physicians and all who saw me said must die. While in this condition I, carried to the watering places in Virginia Tennessee and North Carolina, but was a benefitted by any water to which was ken. While on my way home I stoppel Rutherfordton, a small village in North rolina, to try the effect of some Chalybes water in that place. About the last of the Osgood's India Cholagogue, cure for fever | week I went into a drug store to get son medicine for my child and myself. The were several of the village physicians in the store, and one of them seemed to takesome some questions, said he had been a dyspertie, and had been greatly benefitted by to use of "Dr. Hootlan's German Bitter, prepared by you, and he insisted that would try the Bitters. He, also, called the next day at my room and insisted so much that I would try them that I asked him to menced taking it as directed, and I do sp I was more benefitted by it than all the wa-
